

IEEE OJSE

IEEE Open Journal of System Engineering (OJSE)

IEEE Open Journal of System Engineering (OJSE) is a new open access technical journal devoted to the multidisciplinary aspects of systems engineering. Systems engineering involves elements of model-based systems engineering; digital thread; requirements generation, flowdown, tracking, needs analysis, and validation/verification; integration and test; and full life cycle support of the target system. OJSE deals primarily with the science, methodology, and tools of systems engineering, rather than the results of the application of systems engineering that is the focus of other IEEE journals.

V Model of the Systems Engineering Process

About the Journal

OJSE is an Open Access journal and articles are provided free to the public. The publication cost of Open Access articles are paid by the authors. For 2023, publication costs are projected to be \$975 (USD) for a ten page manuscript. OJSE is sponsored by the consortium of IEEE Aerospace and Electronic Systems Society, IEEE Systems, Man, and Cybernetics Society, and IEEE Systems Council.

OJSE seeks scholarly papers that report original research on the methodologies, tools, principles, and applied engineering aspects of the process of systems engineering for complex systems. OJSE also seeks proposals for special issues. Details for proposing a special issue are available at <http://ieeesystemscouncil.org/OJSE>. Manuscripts are submitted at <https://iee.atyponrex.com/journal/ojse>. Manuscripts submitted to OJSE cannot have been published previously or under consideration for publication elsewhere. Information for Authors are available at the same URL to aid authors in preparation, submission, and tracking of their manuscript. Since IEEE must own the copyright of the technical contributions that it publishes, an electronic Copyright Form must be submitted at the time of manuscript submission. While the official launch date for OJSE is January 2023, manuscript submissions will be accepted beginning 1 April 2022.

Contact the **EiC, W. Dale Blair**, at dale.blair@gtri.gatech.edu for questions and additional information.
