

Minutes, IEEE Systems Council Technical Committee on Systems Engineering Methods (TC-SEM)

25 July 2023 via Zoom at 11:00 AM ET

Attendees: Cristian Gabriel Alionte, Antonio Crespo, Ottmar, Paul Hershey, Christopher Hoffman, Kahled Khnissi, Chengli He, Samantha Infield, Macaulay Osaisai, Vitalii Stoliarchuk, Dr. Zafar Taqvi, Stephanie White

Staff: Bailey Campin

Stephanie called the meeting to order at 11:05 AM ET.

Review of Minutes

The minutes of the June TC-SEM meeting were reviewed and approved.

Meeting Presentation and Discussion

Dick Fairley presented Part 2 of his slides, "Systems Engineering and Software Engineering: Interactions Among People, Problem Solving Techniques, and Technologies".

The presentation reminded attendees of many interesting past experiences and a lively discussion followed.

Next Meeting

The meeting adjourned at 12:30 PM ET. The next meeting will be held on Tuesday, 12 September at 11 AM ET.

At this meeting, Rao Y. Mannepalli will give a talk titled "Digital Engineering is too important to be left alone to MBSE practitioners". He is currently working as the Chief Scientist of Leidos, USA. He has more than 30 years of international, multi-industry and multi-cultural experience as Division Head, Program Manager, Chief Engineer, Chief Scientist, Chief Architect, and Principal Developer at Leidos, Raytheon, US Navy, Lockheed Martin, Bell Labs, and Indian Space Research Organization (ISRO).
