

CALL FOR PAPERS

Important Dates

September 30, 2019

Special Session Proposal
Deadline

November 4, 2019

Full Paper Submission

December 20, 2019

1st Review Round Notification

*Accept, Revise, Reject

February 3, 2020

Submission of revised papers

February 17, 2020

2nd review round – Final
notification deadline for
revised papers

*Accept or Reject

February 24, 2020

Final manuscript submission
of ALL papers

*IEEE PDF

Conference Dates

Valamar Lacroma

May 25-28, 2020

Conference

The IEEE I²MTC – International Instrumentation and Measurement technology Conference – is the flagship conference of the IEEE Instrumentation and Measurement Society and is dedicated to advances in measurement methodologies, measurement systems, instrumentation and sensors in all areas of science and technology. These features make I²MTC a unique event and one of the most important conferences in the field of instrumentation and measurement.

IEEE I²MTC is proposed as a catalyst to promote interactions between industry and academia; a wide spectrum of academic research results will be presented, with potential practical applications in current industrial technology, as well as industry and application driven developments.

Topics for IEEE I²MTC 2020 include

- Measurement theory and methodology
- Metrology and technical standards
- Information technology in measurements
- Signal and image processing in measurements
- Circuits and systems for instrumentation and measurement
- Instrumentation systems design and evaluation
- Data acquisition systems
- Real time measurements
- Networked embedded sensors
- Sensors and transducers
- Micro and Nanotechnology in instrumentation and measurement
- Optical measurement systems and fiber optic measurements
- Measurement of electromagnetic quantities
- Measurement of mechanical and acoustical quantities
- Measurement of chemical and biological quantities
- Non-destructive testing and evaluation
- Biomedical measurements
- Measurements in energy and power
- Measurements in communication systems
- Industrial measurements
- Measurements in robotics
- Measurements in automotive and transportation industry
- Aerospace measurements
- Measurements in agriculture and food production
- Measurements in oil and drill industry
- Environmental measurements

Many other new initiatives and opportunities to encourage your active participation in the conference are planned, and will make I²MTC 2020 a vibrant event to meet with people in Instrumentation and Measurement.

Visit the conference website as well as Facebook and LinkedIn pages for each specific call and additional news.

Organizers

General Chairs

Vedran Bilas

University of Zagreb, Croatia

Dario Petri

University of Trento, Italy

Technical Program Chairs

Wendy Van Moer

M&W Technics, Belgium

Sergio Rapuano

University of Sannio, Italy

Darko Vasic

University of Zagreb, Croatia

Tutorial Chairs

Octavia Dobre

Memorial University, Canada

Igor Lackovic

University of Zagreb, Croatia

Special Sessions Chairs

David Macii

University of Trento, Italy

Hubert Zangl

Alpe-Adria-University Klagenfurt, Austria

Michele Magno

ETH Zurich, Switzerland

Demo Session Chair

Carlo Trigona

University of Catania Catania, Italy

Exhibits Chairs

Vana Jelacic

Zumtobel group, Austria

Hrvoje Dzapo

University of Zagreb, Croatia

Industry Liaison Chairs

Dubravko Sabolic

Croatian Transmission System Operator, Croatia

Vladimir Djapic

American Haval Motor Technology, USA

Local Arrangements Chair

Ivana Palunko

University of Dubrovnik, Croatia

Publication Chair

Zeljka Lucev

Vasic University of Zagreb, Croatia
