  - Large Turn-out in Room

- HSI Technical Committee Meeting – Success!!
  - Five Attendees
  - Reviewed Goals for Next Year

- Membership List in Process of Being Updates
  - Most members have chosen to stay on the list!

HSI Technical Committee –Goals for Year 2

- Goal 1 – IEEE SYSCON Support
  - International Symposium – Rome, Italy Oct 1-3, 2018
    - Anyone planning on attending?
  - International Conference – Orlando, Florida, April 8-11, 2019
    - I have asked to include "Socio-technical Systems" on the list of Conference Topic Areas in lieu of an HSI special session.

- Goal 2 – HSI Societies Collaboration
  - Guy Boy, Chair of the INCOSE HSI Working Group, has asked us to cooperate on a planned INCOSE HSI 2019 International Conference in Houston, TX in September 2019.
    - "In Cooperation" means that INCOSE will organize the conference and IEEE will endorse it.
    - Evaluating this opportunity with the System Council

- Goal 3 – HSI Success Stories
  - We currently have a library of four single slides that capture some current HSI challenges and solutions.

- Goal 4 – Educating Design Engineers
  - Provide a bottom up viewpoint to HSI that includes the perspective of design engineers who may be removed from the end user and unaware of potential HSI concerns.
